## Summary

As a Software developer, I have a strong understanding of Java technologies and frameworks. I have experience developing RESTful APIs, integrating with third-party services, and implementing various design patterns. Additionally, I am knowledgeable in SQL databases and also Mobile Java/React-native development and have experience working in Agile environments. My ability to learn quickly, solve problems, and work well within a team make me a valuable asset to any software development project

### Technical Skills:

- \* Proficiency in server-side technologies such as Java, Node.js, PHP(Laravel)
- \* Proficiency in client-side Vue.js and React.js
- \* Proficiency in Mobile development Java and React-native
- \* Strong understanding of database management, including SQL
- \* Experience with RESTful API design and implementation
- \* Knowledge of version control systems such as Git
- \* Familiarity with Agile software development methodologies.
- \* Excellent problem-solving skills and attention to detail\* Strong communication and teamwork skills

## Experience

### Back End Developer

Connectis

Mar 2020 - Dec 2021 (1 years 10 months)

[On site] I'm working as an Full-Stack Developer, specially with JavaScript framework to develop scalable, maintainable, and performant web applications that meet client needs and for optimizing One single page web app.

- Tech: JavaScript, Vue.js, Axios, Rest API, Pusher (Realtime), React.js & React-native
- Location: Goma, Nord-Kivu - On-site
- Website: connectis.co

### Full-stack Developer [ujatcare.com](https://ujatcare.com)

Aug 2021 - Jul 2022 (1 year)

[Remote] Developing real-time communication applications, having worked on a text chat and video conference app integrated with third-party APIs [Twilio]. This project has provided me with valuable insights into developing highly responsive and reliable applications.

- Tech: JavaScript, Vue.js, Rest API, Twilio, Laravel, WebRTC - Location: Bellevue, Washington, United States - Remote - Website <https://ujatcare.com>.

## Education
